

Print & Apply Labeling System

Legi-Air 4050B

Weber[®]
LABELING & CODING SOLUTIONS

LEGI AIR 4050B ELECTRICAL BELT

As part of the Legi-Air 4050B Series, the LA 4050B Electric Belt is an optimal system for high-volume productions. Achieving an outstanding performance, it reaches a speed of up to 240 labels per minute while ensuring an electric, efficient, and safe operation.

BE ELECTRIC

The power of electricity eliminates the costs linked to compressed air consumption. Legi-Air DNA's: its modular and compact design makes it an ideal system to work with. High precision, quick, and clean operations without needing lubricants nor daily maintenance.

BE FAST

Surpass your production throughput! The Legi-Air 4050B Electrical Belt can adapt to high production volumes working in 3 speeds, that can be adjustable to your production needs. This applicator is especially produced for in line application on moving products, applying up to 240 labels per minute matching high speed conveyor lines.

BE SAFE

The electric driven belt represents an unbeatable safety solution for users. Wipe On technology and stepper motor driven belt guarantee safety during normal operation and supply changes.

BE FIT

Get rid of mechanical adjustments for meeting current and future demands. Smart system and software allow fully reconfigurable application cycles, resulting in a very flexible usability. As all Weber's Print & Apply systems, it is compatible with all major print engines to fit your current production environment.

FEATURED APPLICATIONS

TOP AND SIDE APPLICATION

The LA4050B Electric Belt consists of an innovative combination of the Wipe-On applicator with a set of stepper-motor driven belts that, faster than ever before, places and applies the label onto the moving product. It guarantees a precise positioning and a higher throughput, achieving a speed of up to 240 labels per minute.

Technical Specifications - Legi-Air 4050B ELECTRICAL BELT

Printing Technology	Thermal Transfer, Direct Thermal. Accommodates all major print engines
Print Resolution	Up to 24 dots/mm (600dpi)
Print Speed	Up to 400 mm per second
Label Size	from 30 x 30mm to 150 x 210mm
Label Roll	300 mm outside diameter up to 450 mm, core 76mm (3"), outside winding optional: inside winding
Application Performance	Up to 240 labels per minute
Application Accuracy	up to ± 1 mm on fixed product speed
Compressed Air Connection	-
Compressed Air Consumption	-
Power Connection	91 up to 263 VAC, 50/60Hz, 5Ampere
Environmental Conditions	Temperature: 10°C up to 35°C, 2 up to 95 % relative air humidity, non-condensing
Supported Languages	EN, DE, FR, NL, NO, SE, RU, PL, ES, TR, PT, IT, CZ, HR Optional: AZ, FI, HU, LV
